

FIRST ACCESS PROGRAMME

Brief Overview

Welcome to Telford & Wrekin's First Access Programme for KS1, KS2 and KS3 pupils.

In Telford we believe that participatory music making should provide young people with the inspiration and enthusiasm to engage in their own personal discovery of music in the broadest sense. This could be through music curriculum; instrumental teaching in school or self initiated listening and learning at home. First Access gives young people the opportunity to access a broad and musically diverse range of participatory music activities.

This First Access Programme is **subsidised** through the Telford & Wrekin Music Education Hub grant and we hope that schools will see the cost effectiveness of engaging in whole class instrumental teaching, but will also see the programme as an on-going commitment to instrumental teaching and will continue to support the programme through its next phase.

Booking will be available from February 2016 with a closing date of April 2016
